

Required course

COURSE SPECIFICATION SUMMARY

COURSE OVERVIEW

ADPM 660 – Primary Health Care and Health Service Management

HIGHLIGHTS

This course aims to develop skills in primary health care (PHC) management. Learners will differentiate between PHC management, integrated health systems, and health system management, and apply these concepts to their own country contexts. The course provides basic tools to identify PHC problems, analyze causes, and design strategies to improve health systems and services. By the end, learners will be able to develop a PHC-based project applicable to various settings.

MASTER OF PRIMARY HEALTH CARE MANAGEMENT (INTERNATIONAL PROGRAM)

CREDITS & HOURS:

3 (3-0-6) credits (Lecture – Practice – Self-study)
