*uncontrolled BP among hypertensive PEH in NYC shelter-clinics. 04/01/2021 – 04/01/2023*

*CPI Unrestricted Funds*

*Understanding and addressing adverse impacts of COVID-19 on immunization coverage among camp-based refugees: a pilot study among Rohingya refugees in Cox's Bazaar, Bangladesh. Co-PI. Mixed methods pilot study to understand and address declines in vaccination rates using a rapid-cycle health information system spearheaded by Rohingya community immunization volunteers. Results presented to NHCR/WHO/Government of Bangladesh; service model recommended for replication throughout the refugee camp. 2020 – 2023*

*BKKee Foundation; Tides Foundation*

*Role: Co-PI “A Community-Oriented Primary Care (COPC) Model to Prevent Vertical Transmission of Hepatitis B in Peri-Urban Yangon, Myanmar.” This single arm, prospective implementation science study aims to develop and implement a multidisciplinary COPC model for Hepatitis B prevention and treatment in a population of approximately 80,000 people living in six peri-urban Wards of Yangon. The project aims to achieve high coverage of HBsAg screening and HBV viral load testing to determine eligibility for interventions proven to reduce vertical HBV transmission, including birth dose HBV vaccination, hepatitis B immune globulin and antenatal tenofovir starting at 20 weeks gestation. Household members of women with chronic HBV will be screened and, if eligible, initiated on antiviral HBV therapy. The participatory study engages a wide range of community and national stakeholders whose buy-in is crucial to scale up PMTCT and chronic treatment services for HBV in Myanmar. 06/30/2018 – 05/31/2022*

*Eastern Burma Retrospective Mortality Survey (EBRMS) 2019.*

*Co-investigator and senior technical advisor to the Health Information Systems Working Group (HISWG). The most recent iteration of this large recurring cluster household survey includes assessment of cardiovascular disease and related risk factors. Manuscript under review by co-authors, for submission February/March 2024. 2018 – 2022*

*Livelihoods and Food Security Trust Fund (LiFT)*

*Role: Contractor / Co-Investigator “Social and nutritional status among under-five children and their mothers at the beginning of the Maternal and Child Cash Transfer (MCCT) program in Kayah and Kayin States.” This study evaluates a maternal and child cash transfer program implemented in two States in Myanmar, assessing nutritional status and related behaviors and knowledge among mothers and children under five. I am the lead for health equity analyses. 06/01/2019 – 12/31/2019*

### 3MDG

#### 3 Millennium Development Goal Fund

*Role: Contractor / Co-Lead for Operations Research “Better Health Together (BHT): Inception Phase” This planning grant prepared for a 5-year project to support ethnic health organizations (EHOs) to deliver a basic essential health services package, including HIV testing and prevention of maternal to child transmission, in preparation for the transition to universal health care in Myanmar. The project expands the geographic coverage and scope of services provided by EHOs; support strategic purchasing pilot program; and operations research program to measure quality of care provided by village health workers. 01/01/2018 – 12/31/2018*

#### Global Fund for AIDS TB Malaria

*“Global Fund Local Support” Role: Contractor / Co-Investigator Provided technical support for a project to develop and evaluate strategies for malaria elimination in Myanmar. Included a sub-study entitled “Identification of malaria hotspots and Targeted malaria-elimination (TME) in Taninthayi Region, Myanmar.” This study employed ultra-sensitive PCR to detect sub-patent parasitemia to eliminate the asymptomatic reservoir of infection. 07/01/2015 – 12/31/2016*

#### 5U54NS081764 (PI: Seeman) and U54NS081764 (PI: Vickrey)

*NINDS/SPIRP Role: Co-Investigator “Los Angeles Stroke Prevention/Intervention Research Program in Health Disparities” The goal of this project is to develop a multi-disciplinary center to create and test sustainable interventions to redress racial and ethnic disparities in stroke, and to generate new knowledge about the mechanisms for such disparities that might represent important targets for future intervention. 09/01/2012 – 11/30/2015; 12/01/2015 – 08/31/2019*
